1. It was learned on 21 June 1950 that a police official from Halle (M 52/D 92) established his office in the labor office in Stendal (K 53/Y 85) and extracted from the files personal data on technicians formerly in the navy. These technicians were primarily submarine personnel, but they included airforce personnel, and civilian employees and laborers from airfields. The information was forwarded to Halle to insure that these persons would be exempted from forced labor with the Wismuth A.G.
2. Sixty persons from the county of Stendal volunteered for a paratroop unit which is to be established. Medical examiners found only 22 of them physically fit for service. These were reported to the Ministry of the Interior in Berlin on special duplicate lists.
3. The Minister of the Interior ordered the SED to report to the Volkspolizei all trusted party members or individuals from other parties and organizations. Before this information was submitted to the Volkspolizei it was supplemented with a report from the SED information center on the persons concerned. The lists were immediately forwarded from the Volkspolizei to the Ministry of the Interior, without following official channels.
